

# THE LIFESYNC® SYSTEM CONVERTS BEDSIDE MONITORS, 12-LEAD ECG MACHINES AND TRANSPORT MONITORS TO WIRELESS TECHNOLOGY

TOKEN ENABLES  
SECURE SYNCHRONIZATIONS

BEDSIDE MONITORING

12-LEAD  
DIAGNOSTIC ECG's

TRANSPORT MONITORING

# TOTAL FREEDOM FROM TRUNK CABLES AND LEAD WIRES... EXPERIENCE THE MANY BENEFITS

## Overall Benefits:

- Provides seamless patient transport and faster ambulation.
- May decrease time spent answering lead-off alarms.
- Enhances patient comfort and independence.
- Standardizes your hospital's existing ECG monitoring systems.
- Radiolucent LeadWear® Disposable ECG Accessory, allows clear views of chest x-rays, cat scans and fluoroscopy.
- Potentially decreases the risk of infection from contaminated lead wires.

## BENEFITS FOR THE CRITICAL CARE UNIT

Enables easier patient turning and positioning

Reduces time spent cleaning lead wires and trunk cables

Allows for convenient and immediate 12-lead diagnostic ECG's

## BENEFITS FOR THE EMERGENCY DEPT

Provides continuous bedside monitoring with patient mobility

Easy patient transport to diagnostic labs or floors

Encourages correct and consistent V-lead placement for serial ECG's

## BENEFITS FOR THE STRESS TESTING LAB

Reduces the risk of slips, trips and falls caused by lead wires and trunk cables

Enables quicker patient movement from the treadmill to the bed

May reduce motion artifact and improve trace quality

## BENEFITS FOR THE CATH LAB

Provides the capability of 12-Lead continuous monitoring during catheterization

Offers the potential for increased productivity and faster room turn around

LeadWear® Accessory prevents fluoroscopy shut down caused by lead wire entanglement in the C-arm
